PROFILE

I'm Hanan, a software development student at ITU, and also the founder of Elusive and UAI. My goal is to use my software skills to develop innovative solutions for modern problems. I am passionate about working at the intersection of technology and business.

WORK EXPERIENCE

FREELANCE SOFTWARE DEVELOPER, SELF-EMPLOYED

Unravel ai | 2020 -

Unravel AI is a company I started where we offer solutions in web development and other IT related projects for clients. In addition, we also work on developing our own ideas and projects

- Designed and built responsive and user-friendly websites using HTML, CSS, and JavaScript.
- Worked on both frontend and backend development for web applications.
- Collaborated with team members to ensure timely delivery of projects.
